

Press Release

DMP & IMCS to be Unveiled on November 13 in Dongguan

DMP 2013 - the 15th China Dongguan International Mould, Metalworking, Plastics, Packaging & Rubber Exhibition, organized by Paper Communication Exhibition Services, will be held from 13-16 November 2013 at GD Modern International Exhibition Center, Houjie, Dongguan, China. The exhibition scale is expected to increase **7%, with 4,500 booths**, 1,200 exhibitors and expecting 80,000 visitors. The exhibition will showcase state-of-the-art technologies and machines.

Concurrent events include “3D Printing Technology Forum”, “The 2013 International Advanced Manufacturing Industry (China Dongguan) Summit”, DMold Asia International Mould Industry Alliance Anniversary Luncheon and the 20th Anniversary luncheon and the 11th inauguration of Executive Committee of the Hong Kong Plastic Machinery Association. Other exhibition zones and pavilions include Stamping Zone, Laser Cut & Sheet Metal Zone, Exhibition organized by Hong Kong Plastic Machinery Association, Chemical & Plastic Raw Materials Zone, Taiwan Pavilion and more. The organizer newly opens Hall 7 and further expands the scale of Hall 1 in order to meet exhibitors’ need. Visitor Registration counters will be set up at Hall 1, 4, 5, 6 & 7. In addition, Paper Communication Exhibition Services and Hong Kong Diecasting and Foundry Association will jointly organize International (Dongguan) Metal Casting Show, which will be staged at Hall 6 & 7.

Many well-known brands and manufacturers from South China region, such as BYD, ASM, Foxconn, Gree Electrical Appliances, Shunde Chen Cun Press Machine Merchant Association, Machine Malls, Guangzhou Technical College form buyer groups to visit the show. According to Mr Eddie Leung, Chairman of Paper Communication Exhibition Services, China’s labour shortage, rapid wage rise and fast economic development prompted 3D printing technology, automation and energy saving solutions to be the highlights of this year’s DMP. Famous suppliers from around the world will showcase 3D printers, automation equipment, energy saving products and sophisticated equipment. Visitors will surely be impressed.

Applications of the exhibits include: metal products, plastic products, machinery & production equipment, molding industry, electronics, telecommunication products, automobile, household appliances, toys, furniture & building materials, medical products. Quality of the exhibitors and buyers is higher than other exhibitions of the same kind in South China region.

Gathers Famous Machinery Providers
